

Laborator Termotehnică

<p>Unitate de testare motoare cu ardere interna</p>	 A white control unit on a black metal stand with a motor and various sensors.
<p>Unitate de pornire si/sau frânare a motorului cu ardere interna</p>	 A white control unit on a black metal stand with a motor and various sensors.
<p>Motor cu benzina in 4 timpi, cu compresie variabila</p>	 A small, black and silver 4-stroke gasoline engine with a fuel tank and various components.
<p>Calorimetru pentru gaze de evacuare</p>	 A tall, white calorimeter unit on a black metal stand with a control panel.
<p>Sistem electronic de indicare pentru modulul de testare motoare cu ardere interna</p>	 A blue electronic control unit with a red display screen and a CD-ROM.
<p>Traductoare de presiune piezoelectric si senzor inductiv pentru detectarea Punctului Mort Interior</p>	 A piezoelectric pressure transducer and an inductive sensor with various cables and connectors.
<p>Analizor de gaze arse</p>	 A green and black exhaust gas analyzer (AGS-688) with a digital display, a handheld device (OPA-100), and a control panel.

<p>Sistem de achiziție de date cu minim 8 canale si software de analiza a datelor</p>	
<p>Stand pentru studiul conductibilității termice in metale</p>	
<p>Stand pentru studiul conductibilității termice in fluide</p>	
<p>Unitate compresor in 2 trepte</p>	
<p>Banc analiză transfer termic</p>	

Calorimetru pentru determinarea puterii
calorice (lichide și solide)
